LCX2

Rotary Pocket Bottle Unscrambler - Best Value

Shown with various options.
Hopper included, but not shown.

- Unscramble up to 300 bottles per minute
- 100% positive bottle control for reliability
- Superior controls and construction
- Accommodates a wide range of bottles
- Rapid, repeatable changeovers

If you need more speed and flexibility from your unscrambler, or expect your operation to grow, then there is no better value than the LCX2.

Both models of the LCX take advantage of Omega's patented rotary pocket system. The LCX2, however, can reach much faster machine speeds due to its wider disc sorter, main turret and number of rotary pockets. Also, the construction of the LCX2 is upgraded to carbon steel and includes an advanced controls package that can improve product recipe management, speed control, and machine diagnostics.

★★★★★
MADE IN THE USA

LCX2

OPERATION

An operator loads empty bottles into the standalone hopper. An elevator transports the bottles to the disc sorter. Bottles then exit into a dispensing chute. At the base of the chute, a mechanical 'hand,' or rotary pocket, gently takes control of a bottle for additional orienting and processing. The rotary pocket releases the bottle onto a moving conveyor.

UTILITIES

Electric: 208, 240, or 480 VAC at 60 Hz
Pneumatic: 80 PSIG

CONTROLS

PLC: AB CompactLogix
HMI: AB Panel View Plus 7
Motor: AB PowerFlex 525 AC Drive

STANDARD FEATURES

Patented rotary cam pockets
Integrated touch screen HMI
Paddlewheel
Air jets
30 cu.ft. hopper and elevator
Safety guards and interlocks
Painted steel frame

OPTIONS	DESCRIPTION / BENEFIT
3-Light Beacon Tower	Increases accessibility and convenience; visual machine status
Adjustable Chute	Makes changeover quicker and more ergonomic; fewer parts
Adjustable Sorter	Makes changeover quicker; no ladder needed; fewer parts
Annunciated Alerts on HMI	Increases accessibility and convenience
Casters	Increases accessibility and convenience
Chute Sync	Material handling solution for bottles with concave bases
Discharge Conveyor	Conveyor with motor drive
Down Bottle Reject System	Added functionality; offers redundancy protection for bottles exiting machine
Hardwire Pushbuttons	Start, Stop, and Reset pushbuttons on the HMI enclosure
Hopper Agitator	Material handling solution for bottles in the hopper
Hopper Clean-Out Interlocks	Safety device to ensure hopper clean-out doors are closed
Hopper Flow Track Interlock	Increases accessibility and convenience; safety feature
Hopper Low Level Sensor	Monitors performance of the hopper.
Ionized Air Rinse Assembly	Ionized air helps to remove particulate; includes low flow and low vacuum sensors
Motorized Guide Plate	Makes changeover quicker and more ergonomic
Remote E-Stop	Safety feature; increases accessibility and convenience
Stainless Steel Upgrade	Lower maintenance; corrosion resistance
Tool-Less Rotary Pockets	Makes changeover quicker
UL Panel	Certified cabinet construction, components and assembly
Validation Support Package	Detailed documentation for Validation requirements

IMPACT BENEFITS

LOW COST CONFIGURATIONS

IMPACT Series requires fewer project management and engineering hours than custom-built equipment, reduces project complexity, and saves you 20-40% in acquisition costs.

DETAILED DOCUMENTS READILY AVAILABLE

Reduce your specification effort and simplify your buying experience with our Detailed Design Specification, drawings, user manuals, and validation support documentation (Test Protocol, IQOQ).

ACCELERATED LEAD TIMES

IMPACT Series provides you with a faster than normal lead time, regardless of your machine options, that is estimated at 6-10 weeks.

RELIABLE PERFORMANCE

IMPACT Series is built from precise standards, high quality parts, and leading control packages. You can trust your equipment will perform consistently, shift-after-shift.

AMAZING TECHNICAL SUPPORT

IMPACT Series comes with full access to Omega's highly praised service network and support materials. Discover the difference that fast, skilled technical service makes when you need it.

DIFFERENT PATHS FOR DIFFERENT NEEDS

IMPACT Series

CUSTOM SPECIFICATION

	CONFIGURED-TO-ORDER	ENGINEERED-TO-ORDER
	Offers the best value within a defined range of options	Offers project flexibility and a wider set of technical solutions
Pricing	Established low pricing	Project-based quote
Engineering	Minimal	As needed
Project Management	Minimal	As needed
Electrical Options	Range of options	Customizable
Mechanical Options	Range of options	Customizable
Validation Support	Range of options	Customizable
Equipment Lead Time	Accelerated delivery (Est. 6-10 weeks)	Standard delivery (Est. 16-20 weeks)
Documentation -Detailed Design Specification -User Manual -Validation Support Documents	Readily available	Standard delivery
	Best Path for Value and Performance	Best Path for Customization and Performance

BOTH PATHS PROVIDE YOU WITH THE

- Same high quality equipment
- Same access to industry-leading FAT support
- Same machine uptime reliability
- Same amazing after market technical support

PATH COMPARISON

IMPACT Series

CUSTOM SPECIFICATION

Acquisition Cost

LOW RANGE
Within its machine category and on the market

HIGH RANGE
Within its machine category and on the market

Design Customization

PRE-BUILT
Simple feature set;
No user design input

FULLY CUSTOMIZABLE
Advanced feature set;
Maximum user design input

Quality & Performance

UNRELIABLE
Poor performance and/or construction

HIGHLY RELIABLE
Excellent performance and construction

Technical Support

POOR SUPPORT
Difficult-to-reach or no technical support; Poor documentation

BEST-IN-CLASS
Highly skilled and readily available technical support; Clear documentation

MAKE THE RIGHT KIND OF IMPACT

OMEGA'S

IMPACT Series

OF PACKAGING EQUIPMENT

- ✓ REDUCES ACQUISITION COSTS
- ✓ REDUCES SPECIFICATION EFFORT
- ✓ REDUCES VALIDATION EFFORT
- ✓ REDUCES LEAD TIMES
- ✓ REDUCES OPERATIONAL HEADACHES
- ✓ INCREASES TRUST IN MANUFACTURER

ANY OTHER SOLUTION MAY PUT YOUR OPERATION AT RISK:

- ✗ Speeds slower than specified
- ✗ Frequent downtime
- ✗ Unpredictable support
- ✗ Component obsolescence

THAT CAN RESULT IN

- ✗ Lost contracts
- ✗ Late penalties
- ✗ Rework and recalls
